KEY-60P-XX

Our category 6 keystone jack is designed to transmit data at a speed of 1 gigabit per second at the same time that guarantees a stable operation in the frequency of 250MHz or higher. It works with any type wall plate or mounting box keystone and meets ANSI/TIA/EIA-568 C.2 transmission standards. It is ISO/IEC 11801 and UL certified 94-V2. This modular jack is offered in various colors for easy identification and organization of connections.

Construction & Material:

Item	Characteristics
Insertion force Max.	20N (IEC 60603-7-4)
Holding force	7.7kg between jack and plug
Durability	Connector: 750-cycle plug-to-connector coupling and uncoupling test; insertion cycles of 20 times/minute max.
Operating Temperature	-10°C to 60°C (ISO/IEC 11801, ANSI/TIA/EIA-568-C.2)
Transmission Speed	1,000Mbps
Bandwidth	250MHz
Color	Blue, Red, Yellow, White
