

RAP-S007-OBL

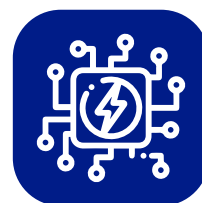

RAP-S004-OBL

RAP-S00X-OBL

Perforated base that offers the possibility of anchoring to the floor to increase the stability of the structure.

Superior angles that offer a solid construction through the precise assembly of its high-strength bolts.

Construction & Material:

No.	Item	RAP-S004-OBL	RAP-S007-OBL
1	Assembly Format	19" EIA/ECA-310E	19"
2	Useful height	24U	45 U
3	External height	20.5"	84"
4	Broad	20.5"	20.3"
5	Loading capacity	850 Kg	475 Kg
6	Depth	13.5"	14.0"
7	Stud Type	Threaded	Threaded

HIGH-STRENGTH

Solid construction through the precise assembly of its high-strength bolts.

CABLE ORGANIZATION

Nylon hooks that allow cables to be carried in an organized manner from the external sides of the rack.

CABLE TRANSPORT

High resistance studs with 120mm depth with perforations that allow cable transport.

FIXING HOLE TO FLOOR

Base with perforations that offer the possibility of anchoring to the floor, to increase the stability of the structure.
